

**AbbVie Clinical Pharmacology Research Unit**  
**Information Sheet**  
 www.abbviephase1.com

**Check In: Monday, August 26, 2019**

**Study drug and design:**

AbbVie is testing an investigational drug, which is not approved by the Food and Drug Administration (FDA) or any health authority, and is not currently available on the market. The objective of this study is to determine safety, tolerability and pharmacokinetics (the amount of drug absorbed into your blood stream and how your body handles the drug) and pharmacodynamics (how the drug affects your body).

***YOU may be eligible to take part in this clinical study if you meet the following conditions:***

- ◆ Healthy men and women 18-55 years old.
- ◆ Females must be: Permanently surgically sterile or postmenopausal for 1 year.
- ◆ Average weight for height (BMI 18 to 29.9).
- ◆ Not taking any medications or herbal remedies or supplements.
- ◆ No history of any drug sensitivity or allergy.
- ◆ No history of drug or alcohol abuse for 6 months.
- ◆ Non-user of tobacco for at least 6 months.
- ◆ No blood or blood product donation after July 2, 2019.
- ◆ No other study participation after July 16, 2019.
- ◆ Must be 6 weeks away from last first in human study.
