

AbbVie Clinical Pharmacology Research Unit Information Sheet

The health and safety of volunteers and employees is our priority. We have safety protocols in place to keep the unit as safe as possible.

Rocky

M25-924 Group 2

Check In: 21, 22, or 23 September 2026

Study drug and design:

AbbVie is testing an investigational drug, which is not approved by the Food and Drug Administration (FDA) or any health authority, and is not currently available on the market. The objective of this study is to compare the safety, tolerability, immunogenicity and pharmacokinetics (the amount of drug absorbed by the body into your blood stream and how your body handles the drug) of a single dose of the investigational drug. The investigational drug will be administered for the first time in humans.

Minimum Subject Selection Criteria:

YOU may be eligible to take part in this clinical study if you meet the following conditions:

- ◆ Healthy men and women 18 - 65 years old.
- ◆ Females must be: permanently surgically sterile, postmenopausal for 1 year, or fertile and willing to practice study specific birth control.
- ◆ Average weight for height (BMI 18.0 to 32.0)
- ◆ Not taking any medications or herbal remedies or supplements.
- ◆ No history of any drug sensitivity or allergy.
- ◆ No history of drug or alcohol abuse within the last 6 months.
- ◆ No use of tobacco- or nicotine- containing products in the last 90 days.
- ◆ No blood or blood product donation within 8 weeks prior to study treatment administration.
- ◆ No other study participation after 23 August 2026.
- ◆ Must be 30 days away from last first in human study.

Screenings at ACPRU in Grayslake

Screening dates: *(To find out if you are suitable to take part in this clinical study)*

- ◆ 27, 28, 31 August 2026 and 01, 02, 03, 08, 09, 10, 11, 14, 15, 16 September 2026
- ◆ **Additional screening dates may be available.**
- ◆ Screening appointments are between the hours of 7:30 am and 11:30am and take approximately 3 hours.

Stipend:

- ◆ **Screening:** \$75.00. (No compensation if urine drug/alcohol/cotinine screen is positive or if BMI is out of range.)
- ◆ **Study:** Compensation of up to \$8,150.00 may be provided if selected and you complete the study.

Study dates: *(Please note that these dates and times are subject to change)*

Must complete all periods and/or follow up visit(s).

AbbVie Clinical Pharmacology Research Unit Information Sheet

CHECK IN 21, 22, or 23 September 2026 at scheduled appointment time.
